Sub: Letter of Appreciation

Dear Sir/ Madam,

An appeal to help the flood affected people of Sangali and Kolhapur districts was made by the NSS cell on 10th August, 2019. 157 colleges contributed to the relief material collection.

I do not have words to express my gratitude towards the colleges for generous relief material collected by the staff, volunteers under the banner of N.S.S. Some colleges have arranged for transportation on their own. Some colleges have handed over the material to Government agencies/NGOs. Some have sent the material through the trucks arranged by the NSS district coordinators and Department of Student Development, University of Mumbai. As a result of the cumulative efforts, the collected material was distributed to more than 4000 families in villages Terwwad, Herwad, Shirti, Bastiwad, Merwad, Kurundwad, Tal. Shirol, Pundi, Tal. Palus, Avali BK, Karanjens Tal. Radhanagari, Bahireswar, Tal. Karveer, Khochi, Bhendawade Tal. Hatkanagale, Bhilwadi Tal. Tasgaon, Bahegaon, Islampur, few villages from Sindhudurg district and medicines Doxycycline in villages in Pen Tehsil.

A google form was used to collect the data of collection of flood relief material. The program officers of respective colleges have filled the form. A separate list of the consolidated data is enclosed with this letter.

I also wish to put on record the sincere efforts taken by the colleague program officers, volunteers, non NSS students, the staff of your college and the management. I thank you on behalf of the N.S.S. Cell of the University of Mumbai for generously helping the cause.

TESTIMONIALS OF STUDENTS

Krutika Patel (SYBAF)

I can surely say that my experience of preparing handmade eco-friendly Ganpati idol was memorable and amazing. We have done this activity individually as well as in groups. I made Ganapati idol out of grains. Few have made out of other eatable items. After making murti I did all the rituals and puja. It was not different as the connection between god was as same as when we buys un bio-degradable ganapati idols. These idols are harmful for the environment but eco-friendly idols are friendly for environment. I have done this for first time and now will continue it for lifetime . I think everyone should go for eco- friendly ganpati. We did puja and aarti as like every year. At the day of visarjan I did the same rituals like every year. we put murti in water for visarjan likewise I washed the grain in water. Then out of washed grain we have made sweet shira . Making a shira in large quantity was an amazing experience. we distributed it to the needy people in the nearby slums. I was very happy And I can truly say that my experience of ECO-FRIENDLY GANPATI was superb and excellent. At the end after giving sweets to the children and to senior citizens their sweet smile satisfied the sole.

I can surely say that social outreach program at GCSC (Gurukul Centre for Special Children) was a life changing experience for me as it was filled with emotions and sentiments. I feel lucky to have got a special opportunity to help the GCSC students. My activity basically involves teaching and helping children in their studies and having quality interaction with them in order to improve their mindset and for us to understand them. These children are just little different from other children. But many times, these children are not accepted by the society. I use to teach grade 2 students there I first interacted with a girl name viva. She was such a sweet girl. She use to just keep on talking and easily get interacted with everyone. She use to just take up things easily. Her grasping power was just super. At the end of my activity, she told 'Didi please come to teach me daily'. From that day onwards I decided to take a small step in the direction of making a difference in the lives of as many special kids as I can. I got attracted to them and with their way of thinking I started believing in inner power of those kids. Even I celebrated my birthday with them. They were so happy their smiles say it all. I have realised that they open their heart for everyone who shows affection. In short, they teach us to do so and be thankful. I have learnt how important it is to trigger imagination and have the capacity to think out of the box. They teach you to see the world from different perspective.

Before joining NSS, I didn't know much about blood donation. People used to fear that donating blood is bad for health, but after coming to NSS, I came to know that is all rumours. We volunteered in blood donation camps at Railway station and College campus. From Convincing people to donate blood or encourage them through slogans, to filling donor's forms I did each and every task. And it was a very good experience. Especially at railway station we interact so many peoples who are late for their office or college students and still they take out a time and donate blood, it's a really good thing. And happiness on their face. Nothing can beat this satisfaction. Doctors, Nurses are also respectable. We collect more than 100 donors in each camp. Later than, some peoples who contacted us for blood we help them from our contacts. At the end of my first blood donation camp, I realised that happiness you feel along with a sense of accomplishment and satisfaction of that "you did something for the society, you did something for those people who are fighting for their lives, you give them chance to live more". Everyone has seen in COVID, when there were lack of blood and how people are begging for their lives or save their family members.

Donating blood is not a small thing. You can help society through this and it is really good thing. And NSS taught me one thing "Helping others might not change the whole world, but it could change the world for them". And if not we, then who? If not now, then when?

hadiha.

I was being a part of the NSS for 5 Years as a member, volunteer and leader. I've participated in many of the activities but my best experience was in **Road Safety**. It was organised by the United Ways to spread awareness about the road safety to the Bike Riders, Car, Bus and Truck drivers.

On the occasion of **29th National Road Safety Week**, I and group of NSS volunteers participated for Volunteering in **United Way Mumbai's Slow Down Campaign at Chedda Nagar Signal** to aware about Road Safety Rules and Regulations. The awareness about Road Safety through 5 different ways of activities like Street Play, Classroom interaction and awareness at the Vikrant Circle for the Bike Riders, Practical Demo of riding bike and Wearing a Drunker Glasses to experience burly view. Among the 5 activities, my favourite part was Street Play where we have act in front of the public and aware that **"Don't Drink and Drive"**, **"One mistake – loss of life"** because of this many of the people appreciated for our care toward the riders and their safety. With the Drunker Glasses (Eye wear), I have experienced that how drunker see the thing burly visual and they are unable to stand properly. I'm the luckiest person to share my learning with the many riders through the PPT session ad interact with them.

From this activity, I've learnt many things about the safety during riding a vehicle that to follow the rules and regulation, carry the proper documents of the vehicle and safety while riding. In today's era, road accidents are rampant. Road Safety week thought me to keep your eyes on the road while driving, it is crucial that you pay attention to the road in front of your car and don't allow your mind

to wander. Driving needs focus and concentration, so you should make sure that you take breaks when your brain starts to feel tired or if something distracts you. One must follow these rules that include removing distractions from the eyes, hands, and mind while driving, using turn signals, and signalling before changes in speed or direction.

It was a best experience to be part of the road safety activity.

Thank You

Brahmadev Sharma (BBI, 2019-20)

Although I have participated in many activities under the National Service Scheme, but I can definitely say that my experience of waste collection was excellent. We did this activity individually and in groups, individually we collected waste from our homes and at group level we went to everyone's house in our area and did the work of waste collection, after collecting the waste we segregated it in the college campus. In which with the help of BMC vehicles, the waste was taken to its dumping ground. This activity makes me very happy because through this I realized that knowingly and unknowingly we throw many such wastes which are harmful for the environment, along with this we also throw such wastes which can be reused later. After this activity, I changed myself. Now I am throwing waste only after segregating it. I consider myself lucky that I got an opportunity to work in such an activity which changed my thinking.

Dear Madam,

Subject: Banking, Financial Services & Insurance (BFSI) training for final year students / graduates with placement assistance at zero cost

Greetings from Kotak Education Foundation (KEF)

It is a pleasure for us to be writing to you. KEF is a 16-year-old foundation active in Mumbai and is the CSR initiative of Kotak Mahindra Bank. KEF has various interventions through which it has been making a tangible difference in the lives of people from the economically backward sections of society. Our mission is to have a sustainable process to support youth from underprivileged families with training interventions so as to empower them to be employable and rise higher to lead a life with dignity.

Unnati is one of the community-based interventions of KEF. It is a livelihood program to train and mentor Indian youth in the age group of 18-25 years. Over the last 16 years, we have trained more than 20,000 young Indians and have placed them in various organized sector jobs across industries.

Unnati has for BFSI, a skill development program in Mumbai. Details are as follows:

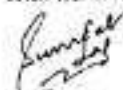

- Unnati is a zero cost-training program for the participants and provides certification on completion and full placement assistance.
- This program is for those in the age group of 20 to 25 years with an annual family income up to Rs. 3.25 lacs.
- The duration of the program is 3 months for i) TY students who have appeared for their final exams and ii) Graduates of past batches.
- The program includes BFSI domain, Life Skills, Work Readiness and English-speaking training to equip the youth with the necessary professional and other relevant skills required.
- 100% placement assistance by KEF to all eligible participants to secure a job and embark on a sustainable livelihood journey (subject to completion of their graduation).

We would like to conduct a presentation for the third-year students of all streams at your college to enable them to understand the benefits of the above program. As stated above, there is no fee charged to the participant or even the college.

Kindly let us know of a suitable date in the coming fortnight, for a presentation, along with the names of students who will attend the same.

Thanking you,

With warm regards,

Procurement from Micro and Small Enterprises (MSEs)

Description: The Public Procurement Policy for Micro and Small Enterprises (MSE) has mandated that every Central Ministry/Department/PSU shall set an annual goal of minimum 20 per cent of the total annual purchases from the products or services produced or rendered by MSEs. However, the government recently revised the order making it compulsory for all CPSEs to procure 25% from MSEs instead of 20% of their total purchases. Out of the total annual procurement from Micro and Small Enterprises, 3 per cent from within the target shall be earmarked for procurement from Micro and Small Enterprises owned by women. A sub-target of 4% out of annual procurement is earmarked for procurement from MSEs owned by SC/ST entrepreneurs.

MSME Sambandh portal has been launched to monitor the progress of procurement from MSEs including MSEs owned by SC/ST and women.

Who are eligible: Any Micro or Small enterprise.

The concept of physical literacy was first proposed in 1993 in a paper presented by Margaret Whitehead at the International Association of Physical Education and Sports for Girls and Women Congress in Melbourne, Australia. Credit for the development and establishment of the concept includes support and study by Elizabeth Murdoch, Liz Taplin, Len Almond, Patricia Maude, Margaret Talbot, Melanie McKee and Dominic Hadyne Davies – to name but a few.

“Physical literacy can be described as the motivation, confidence, physical competence, knowledge and understanding to value and take responsibility for engagement in physical activities for life.” (IPLA, 2017). Physical Literacy approach puts special emphasis on the role of motivation and enjoyment in making people value and engage in physical activity. The incorporation of Physical Literacy in the Physical Education curriculum makes P.E. & Sports classes inclusive, enjoyable and a positive experience. Research proves that children who are physically literate are not only more confident to play games and participate in sports but also survive in the battles of life. Thus, physical literacy impart life skills that give people the tools to engage in health-enhancing physical activity for life.

Dear Sir/Ma'am,

My name is Purushottam Paras, I am a Business Development agent at BIAP.

Greetings from the Board of Industry-Academia Partnerships!

Board of Industry-Academia Partnerships is a youth organization that has been closely related with various Corporates, Institutions, Associations, Colleges, Co-working spaces, Government Organizations with the aim of spreading awareness on various Finance related subjects.

We hope you and your organization are secure during these repulsive times. Each organization as of now has one aim which is to win this battle against COVID-19. Even in times like these, we at BIAP strive to bridge the gap between the Industry and Academics with our dedicated initiatives.

● times like these, where an individual appears to be facing a new challenge every day due to the COVID-19 pandemic, we at BIAP believe that 'Modern Problems require Modern Solutions' which is why we have come up with an initiative of a Digital Investor Awareness Program.

Therefore, in the growing era of corporate scams and accounting scandals, self-awareness and adequate knowledge in the field of finance is extremely necessary. Each one of us needs to plan our financial goals for which knowledge about financial products is a must. It will help every individual to take independent decisions and plan out for the future in a better manner.

A digital awareness program is an attempt to clear out the misconceptions in the minds of investors, channelize their investments, make them aware of various asset classes, and equip them with enough financial skills so that they are financially safe.

Notable Colleges covered by us: Jai Hind College, HR College, KC College, Mithibai College, Narsee Monjee College, St. Xavier's college, Hinduja college, etc.

Notable Corporates covered by us: WNS Global Services, Durian Industries, Crisil, Worksquare, MRF, Wellness Forever, P&G India Ltd., Nestle India Ltd., etc.

We would like to propose a like-minded Financial Awareness Session!

Major topics that will be covered in the session :

● Primary and secondary markets, shares, mutual funds, ETFs, other securities, Myths and realities, Precautions, Sebi Complaint redressal system, and much more.

Session Details:

If the freezing point is - 0.525°C or below, milk may be presumed to be free of water or may be confirmed as water free by other officially specified tests. If the freezing point is above value - 0.525°C, milk we can designate it as "presumptive added water" and will be confirmed as added water or added water free by other officially specified tests.

WE DETERMINE THE QUALITY OF MILK FROM FAT AND SNF PERCENTAGE (%).

The minimum standards as per FSSAI (Food Safety and Standards Authority of India) are as given below. We are mentioning the other parameter and values only for your reference and better understanding.

To identify chemical adulteration, it is necessary to carry out qualitative milk adulteration chemical tests. For details of these tests, please visit our CGSI website, www.cgsiindia.org

Placement Committee Report 2022-23

The active placement cell of Gurukul College of Commerce conducts campus interviews for the benefit of BCom, BAF, BBI, BMS and MCom students. Every large organization and corporate sector conducts campus interviews, and students are awarded positions in accordance with the organization's needs and the student's interests. This provides a great opportunity for students to secure job offers even before they graduate and allows them to gain exposure to different industries and companies. It also helps the college maintain a good placement record and build strong relationships with various organizations.

The placement cell has scheduled campus interviews for the academic year 2022-2023 during which hiring decisions are made for positions with global corporations like ICICI Prudential, ICICI Bank etc. Here are the specifics:

Sr. No	Name of the company	Month	Total students selected	Pay package
1	• Jio Smart	November	14	Commission based
2	RevoCap solutions	January	02	2.5 to 4 lakhs p.a
3	ICICI Prudential Life Insurance	February	19	2.8 lakhs p.a
4	• ICICI Bank	March	92	2.7 to 3 lakhs p.a
5	• Techno serve	March	49	1.5 to 2.8 lakhs p.a
TOTAL			176	

Free training to students for campus to corporate was given by the techno serve. The training aimed to equip students with the necessary skills and knowledge required to transition from campus life to the corporate world. The program covered topics such as resume building, interview skills, workplace etiquette, and communication skills. Dr. Piyush Anam, who had participated in the same TCS training program that benefited approximately 170 students, offered soft skill training for the students' benefit. The training program aimed to bridge the gap between academic and professional skills and prepare students for their future careers. Dr. Piyush Anam's expertise in soft skills would equip the students with the necessary communication and interpersonal skills required in a corporate environment.

The placement committee expresses gratitude to Principal Dr. Nanita Roy for her invaluable help and direction. In the future, we anticipate continued support.
